

Supermagnet Super400

Product description

Supermagnet Super400 is a new generation printable magnetic film, that is thinner and lighter, but with a stronger magnetic force than traditional PVC print magnets. Supermagnet Super films have a better roll flatness and allow smooth printer feeding and easier cutting. Besides, due to the lower weight, it offers many operational cost-saving advantages compared to traditional magnets.

Supermagnet Super400 is an alternative magnetic film for traditional Magnetic PVC Film 600 μ .

Print compatibility

 **Latex**

 **(Eco)Solvent inks**

 **UV-cure inks**

 **Screenprint**

Shelf life and environment aspects

The shelf life of this media is 1 year under normal conditions (10°C – 35°C at a relative humidity 30% - 75%). Higher humidity and/or temperature can affect the product performance. Always store the media in a dark place in its original packaging.

Important:

Before using the media the user must examine the suitability of the media for each application. We shall not assume liability for non-performance of the media. Specifications are subject to change without notice.

Physical characteristics

Surface: Matte

Print side: White PVC

Base material: Flexible magnet

Thickness: 400 μ

Weight: 930 g/m²

Magnetic force: 25-30 g/cm²

Guaranteed magnetic force: ≥ 25 g/cm²

Features

Thin and light-weight magnetic film

Adheres to steel-based surfaces

Very good flatness

Allows smooth printer feeding and easy

cutting Easy to install and remove

Reduces the life-cycle cost for signage

Also available in other thicknesses

VOC-free A+

Applications

Retail advertising

Trade show graphics

Interior decoration

Wall graphics
