

# Mactac Special Laminating Films

A simple way to enhance and protect

Mactac Special Laminating Films offer many different ways to protect, customize and beautify your custom graphics. With optically clear, textured, conformable and PVC-free options, this portfolio gives you the sheer flexibility needed to bring graphics to life and add something extra. The anti-graffiti films suit flat and slightly corrugated surfaces. You can add depth to your images by laminating them with PG 7075 gloss or PG 7285 matt. And you can choose from three different surface textures for an original look and feel: coarse wood, carbon fibers and brushed metal.

## ✓ Key features

- Easy maintenance PVC-free anti-graffiti films
- Gloss and conformable satin anti-graffiti solution
- Special adhesive for UV inks
- Highly textured films (coarse wood, carbon fibers and brushed metal)
- Photographic solutions in gloss and matt
- Optically clear laminating film for JT 7000 Perforated Window Films
- Fire-resistant EN 13501-1 certified

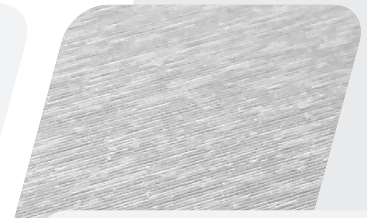

## ✓ Advantages

- Improved sustainability with PVC-free options
- Enormous versatility across different applications
- Graffiti protection for both flat and irregular surfaces in gloss and satin
- Personalized graphics with added texture
- Additional image depth with glossy and matt laminates

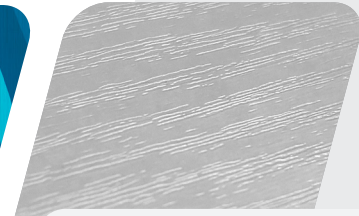

# Mactac Special Laminating Films

## Applications

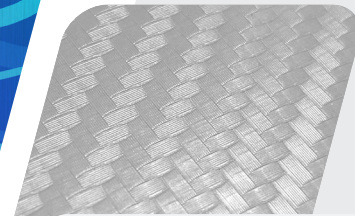

Mactac Special Laminating Films are suitable for a very wide range of applications both indoors and outdoors. They can be used to enhance and protect graphics on walls and other surfaces in virtually any public space such as shops, POS, restaurants and exhibitions, as well as graphics for vehicles.

Permafun Brushed Metal

Permafun Coarse Wood

Permafun Carbon Fibers
